

RE: Final Call for Abstracts Closes March 31, 2016

Dear President Rogerio Pinto Mota,

Preparations for IVC-20, the main event of IUVESTA, have been coming along nicely due to your contributions and efforts. Thanks to your support, the congress is sure to be a success.

Until March 15, we have received over 1,100 abstracts from 50 countries and recently updated about 70 invited speakers. In response to the many requests for a few more days to submit abstracts, **we have opened the final call for abstracts to March 31, 2016.**

Thus, we would like to kindly ask the Sociedade Brasileira de Vácuo, as an IUVESTA member society, to announce to their society members to submit their abstracts by March 31. If there are any effective ways to promote the deadline, such as **updating your News/Events page or distributing the email using the attached "Call for Abstracts Reminder" file**, I would greatly appreciate your assistance and collaboration.

I heartily thank you for your previous cooperation, and once again I ask for your big help for the success of our congress.

Sincerely yours,

Prof. Hee Jae Kang

General Chair, 20th International Vacuum Congress

President, Korean Vacuum Society

Encl. IVC-20 CALL FOR ABSTRACTS REMINDER
